

Hello,

2015, our year of fight, began with hope and courage. We continue to challenge imperialism on our soil.

To keep our country from being the base of the imperialist banditry, we fight at the cost of our blood, our lives. We know that this Marxist-Leninist red flag we wave, gives power to the all peoples of Middle East. "No, Imperialism will not conquer Socialism ".

In this symposium, we believe that everyone has the responsibility to protect socialism from being conquered by imperialism. Because here, the anger of everyone against imperialism overflow from their hearts. That's why you're here. You are here to be united.

As you know, on 2001, "Either you are with us, or you are with the terrorists" said Bush. What Bush said proves once again that being anti-imperialist costs too much to pay today. We are paying part of this cost, we are confined.

The isolation continues as required by the policies of imperialism. Our people are murdered, while murderers are wandering around freely; as anti-imperialist and anti-oligarchic revolutionists, every day we face with the politics of oppression and terror, we become arrested.

In opening of Turkey's Cell type prisons, it was said that: "To apply IMF policies we need to solve the problems of prisons." That's why we were slaughtered.

But we are still struggling! Here, we can make our voice heard by you. You can also make our voice heard by the anti-imperialist struggles. As free prisoners of Bakirkoy Prison we send our love and greetings to all the revolutionaries of the world. Except for a handful of exploiters, we greet all the people of the world and you.

WE WILL WIN! WE WILL WIN! WE WILL WIN!
