

Hello,

I want to greet all of you with my heartiest revolutionary feelings.

Imperialism wants to impose surrender to the entire people. I say NO to that, together with all our hearts.

The people are crying tears of blood. It is forbidden to think, it is forbidden to react.

Dünya halkları kan ağlıyor. Düşünmek yasak, karşı koymak yasak. Those, who implement laws, want to destroy-intimidate humanity and the struggle for the people with propaganda of „terrorism“.

Whatever they do, they won't be able to destroy the rightful ones.

The struggle of the people and the revolutionaries will win.
