

Hello.

We, the Free Captives of Tekirdag No. 1, F-Type Prison, extend our greetings to the participants of the symposium. Despite the propagandas of “The world has changed”, “Imperialism has changed”, the reality experienced by the people of the world and Middle East is the constant blood and cruelty, exploitation and barbarism created by imperialism.

Beneath the “modern” appearance of imperialism, there is a murder network which is thirsty for blood of people of the world and continues shedding blood. As the Middle East has literally become a chess board for the imperialists, it has become a blood path for its people. Under the name of “Arab Spring”, the anger of the people has been diverted, the governments resisting against imperialism have been overthrown. The gangs fed by the imperialists and fascist AKP continue to slaughter the people of Syria.

The world did not change, neither the imperialism did. The only thing that changed are the ones who have dropped the anti-imperialist struggle out of the agenda and forgotten it. The ones facing imperialism but not to the people resisting against it, seeking for the alliance and collaboration with the imperialism have drifted apart from the anti-imperialist traditions which are also the ABC of the revolutionism. Revolutionism is equivalent to the anti-imperialism in today’s world.

That is why, we have resisting at the cost of the martyred 122 lives for 7 years against the policy of F-Type prisons which is one of the attacks of imperialism in our country, and we still continue to resist. And we never allowed them to capture the hope for revolution and revolutionism, and to block our socialist movement and we never will!

No matter what they do, we will continue to resist and fight. June uprising is an indicator that imperialism’s isolation attacks could not be successful in our country. Millions of people, who attended the funeral of Berkin Elvan wounded by gas granate and passed away last year, prove that we are insuperable along the way of hope. As long as there are people fighting against all over the world and in the Middle East, imperialism and its collaborators will never win ! The true internationalism is the common struggle of the people of the world and the Middle East against imperialism.

Today, the flag of anti-imperialism has to be risen up more and more audaciously and ambitiously than ever before. Alisan Sanli lightens our way in this fight and continues to teach us how to struggle in this fight, and he will always do.

We salute all the participants once more and say that “THE LIFE DOES NOT CARE ABOUT THE STORM YOU INVOLVED, BUT CARES ABOUT WETHER YOU COULD TAKE THE SHIP INTO THE PORT OR NOT”, and we wish you success in your works.

Down with imperialism !
Long live the struggle of the entire people!
Imperialism will loose, people of the world resisting and fighting will win!
Long Live Proletarian internationalism!

With our greetings and warm regards.

Free Captives of F-Type Prison No. 1 – Tekirdag
